HiFlow Rite-Temp with stops, NPT connections OR	K-306-KS
Rite-Temp with stops, CPVC connections	K-304-KP
Optional accessories:	
HiFlow Rite-Temp thick wall installation kit	1073881

Installation Notes

Install the valve trim according to the installation guide.

Install the Rite-Temp valve according to the installation guide.

Avoid cross-flow conditions. Do not install a shut-off device on either valve outlet.

Cap the shower outlet if the deck-mounted spout, diverter, or handshower is connected to the spout outlet.

Install a 7" (17.8 cm) to 18" (45.7 cm) straight pipe or straight tube with single bath elbow between the valve and the wall-mount spout.

Due to the waterway location in the spout, the finished wall should touch the top surface of the supply pipe.
