Corbelle Comfort Height Toilet®
With Revolution 360™ Flushing Technology
Corbelle™ Comfort Height™ Toilet
With Revolution 360™ Flushing Technology

The Corbelle two-piece toilet with skirted trapway features innovative Revolution 360 swirl flushing technology—our most perfect flush yet. We never compromise when it comes to toilets. Why should you?

Revolution 360 swirl flushing technology
This innovative flushing technology sends 360-degrees of water through the bowl for complete coverage that leaves nothing behind.

AquaPiston™ flush engine
The driving force behind Revolution 360 is the AquaPiston engine. AquaPiston packs a powerful punch to eliminate clogs.

CleanCoat™ technology
CleanCoat prevents bacteria, mildew and mineral deposits from sticking to the bowl, so your toilet stays cleaner longer.

Easy-to-clean skirted trapway
The base of the toilet can be the hardest area to clean. We eliminated the nooks and crannies of a traditional toilet and replaced them with smooth sides, making them easier to clean.

ReadyLock™ installation system
The patented ReadyLock system doesn’t require any holes to be drilled into the floor on most installations. It makes installation fast and easy.
