Features
• Includes valve body, pressure balance cartridge, rough-in guide and mud guard
• 1/2” Universal NPT & direct sweat inlets & outlets
• 5.0 gpm (18.9 l/min) maximum flow rate at 45 psi
• Single lever design cycles from off through cold to hot
• Provides temperature regulation and automatic anti-scald protection
• One piece cartridge design simplifies installation and maintenance
• Adjustable high temperature limit stop to control maximum water temperature
• Requires valve trim to complete installation (sold separately).

Material
• Forged De-zincification Resistant Brass body provides long term reliability and resistance to aggressive water conditions

Technology
• Pressure-balancing diaphragm technology maintains outlet temperature within +/- 3 degrees Fahrenheit during water pressure fluctuations

Installation
• Designed for use in standard, back to back and thin wall installations
• Valve body features integral mounting locations and symmetrical valve inlets to simplify installation
• Cartridge is reversible for installations where hot and cold supplies are reversed.
• Rough-in guide designed for both standard and thin wall installations
• Installed valve rough-in can be flushed and pressure tested to 150psi max (air or water) without cartridge, using K-10351 Test Cap

Optional Products/Accessories
K-10350 Deep Rough-In Kit For K-8305 Cartridges
K-10351 Test Cap For K-8300 Series Valve Bodies

Codes/Standards
ASME A112.18.1/CSA B125.1
ASSE 1016/ASME A112.1016/CSA B125.16

KOHLER® Faucet Lifetime Limited Warranty
See website for detailed warranty information.
**Technical Information**

All product dimensions are nominal.

**Shower Valve:**
- Min. pressure IN: 20 psi (1.4 bar)
- Valve body: Machined-brass

**Notes**

Install this product according to the installation guide.
- Avoid cross-flow conditions. Do not install shut-off device on either valve outlet.
- Cap the shower outlet if deck-mount spout, diverter, or handshower is connected to the spout outlet.
- Install straight pipe or tube drop of 7" (178 mm) to 18" (457 mm) with single elbow between the valve and wall-mount spout.
- For finished walls greater than 3/4" (19 mm) and less than 1-1/2" (38 mm), install support(s) 2" (51 mm) from the stud face.
- For finished walls greater than 1-1/2" (38 mm), install support(s) 3" (76 mm) from the face of the finished wall.
